Overview: Why Google AdWords

Attract more customers

Whether you're looking to bring in new website visitors, grow online sales, get the phone ringing or keep customers coming back for more, Google AdWords can help.

Reach the right people at the right time

Your business gets found by people on Google precisely when they're searching for the things that you offer.

Advertise locally or globally

Target your ads to customers in certain countries, regions or cities – or within a set distance from your business or shop.

No visit, no fee

Signing up for Google AdWords is free. You only pay when someone clicks your ad to visit your website, or calls you.

Get your business found

Whether you're looking to attract new website visitors, grow online sales, get the phone ringing or keep customers coming back for more, Google AdWords can help.

Get your ad on Google Display Network

Be seen by customers at the very moment that they're searching on Google partner sites for the things which they are interested in and at the same time your banners follow that particular customer with strong display marketing.

Benefits of Google Display Banner Ads

All the Right People, In All the Right Places

While Search Network ads are great at influencing a buyer's decision to purchase a product, the Google Display

network captures the attention of people who are at all different stages of the buying cycle.

Brand Awareness and Direct Response

Brand awareness is the best way to utilize the GDN by allowing advertisers to control brand messaging, where it appears and cost.

To Sum it All Up

The Google Display Network is a great and inexpensive way to reach new audiences that you never could reach by search alone.

Digital Marketing helps to increase traffic on your website

Campaign Types on Google

- **Google Search Network**
- **Google Banners Marketing**
- **Shopping Campaign**
- **Mobile Advertisement**
- **Google Display Network**

Landing Page | Dynamic Web | E-com

Overview: Web Development

In order to succeed in today's world of Information Technology, you must be present on virtual world i.e. Internet. More and more people log on to the internet every second; there are billions of users world-wide and there are several reasons why one needs a web site. A website is a powerful first impression of your business.

Placing your business on the World Wide Web, gives your business the potential for global exposure, no matter the size of your business – be it large or small; singular or multi-national.

Benefits of Website:

- Increase New Business
- Provide Information to Customer
- Sale Products Online
- Increase reach at global level
- Help to get feedback and create more interactive connections with Customer and Seller.

Social Media Marketing

Social Media marketing strategy is for businesses to interact with their potential customer and build relationships and communities online. When your organization joins these social channels, consumers can interact directly. That interaction can be more personal to users than traditional methods of outbound marketing and advertising.

Social Media Platform includes Facebook, LinkedIn, Twitter, Google Plus, and much more social platforms to interact with their customers.
